We, the undersigned, have read the attached criminal complaint against Johnny J. Martinez in the death of Kevin J. Pecor on 1/13/03, as well as the 4 attachments. We are all over the age of 18, and reside in the Commonwealth of Massachusetts. We also believe that Kevin had the right to be on the road, and that Mr. Martinez should be charged with vehicular manslaughter. We would like to file criminal complaints as well. If Mr. Martinez is not charged, we would like to know what Right of Way laws were used in the determination. We also believe that, though separate from this issue, there should be a direct correlation between driving on a suspended license and the consequences thereof. Specifically, when driving illegally results in a fatality, the driver should automatically be guilty of vehicular manslaughter in the criminal courts. We also would like to see a mandatory alcohol and blood test on all drivers involved in an accident resulting in a fatality.
